

Osher Wealth Managers
ARCHITECTS OF WEALTH

Wealth architecture for income that does not arrive in straight lines.

Premium financial planning for lawyers, doctors, chartered accountants, architects, consultants, freelancers and creators — professionals whose income, taxes and decisions move seasonally.

ABOUT

Built for professionals whose earnings move in seasons, not salaries.

Osher Wealth Managers helps affluent professionals plan around uneven cash flow, tax cycles, liability protection, retirement needs and long-term family goals. Every mandate begins with how you actually earn — then works backward to a plan that holds through the lean months as well as the good ones.

How we plan

A goal-led approach with a measured risk lens: allocation decisions are sized to your income variability, not a generic model portfolio. Every plan is reviewed on a quarterly rhythm, so it moves as your practice, fees or billings do.

What this is not

This brochure and our services are educational and planning-led. Osher Wealth Managers does not guarantee returns, and nothing here is investment advice — every recommendation is tailored after a full suitability profile.

Who we work with

Doctors

Lawyers

Chartered Accountants

Architects

Consultants

Freelancers & Creators

"The planning helped me separate practice income from long-term wealth."

PRACTISING ADVOCATE, DELHI

SERVICES

Six advisory modules, built around one plan.

Each module is reviewed together, not in isolation — so a change in one, a new loan, a shifting fee cycle, a growing family, is reflected across the whole plan.

01

Investment Planning

Allocation, SIP/STP planning and periodic portfolio reviews aligned to your risk lens.

02

Cash Flow

Liquidity buffers and discipline built for uneven professional income.

03

Insurance

Protection mapping across health, term and liability exposure.

04

Goal Planning

Education, home, family and legacy goals made measurable and time-bound.

05

Debt Management

Loan repayment choices balanced against liquidity and tax cycles.

06

Retirement Planning

Corpus, timeline and withdrawal planning for financial independence.

"Clear, calm and structured. Exactly what my family portfolio needed."

CONSULTING ARCHITECT, BENGALURU

HOW IT WORKS

A five-question profile, then a plan you can act on.

01

Profile

Age, profession, income, investible assets and target retirement age — five questions, one sitting.

02

Advisory Class

We place you in a suitability class and share an indicative fee before any commitment.

03

Quarterly Review

The plan is revisited every quarter, so it tracks your practice or business, not a calendar default.

MARKET INSIGHTS

India-focused planning signals.

AMFI SIP CONTRIBUTION

Rs. 31,781 Cr

June 2026

MF INDUSTRY AUM

Rs. 82.22 L Cr

June 2026

DEMAT ACCOUNTS

23.15 Cr+

NSDL + CDSL, June 2026

GROSS SAVINGS

Rs. 111.13 L Cr

India, 2024-25 estimate

Sources: AMFI June 2026 SIP data, NSDL and CDSL June 2026 statistics, and the PIB 2024-25 savings release. Figures are cited for market context only.

CONTACT

Start with a conversation, not a sales pitch.

Write in, call the advisory desk, or complete the five-question profile on our site to see your advisory class and an indicative fee.
